Forward-Looking Information

Statements made by representatives for Bitcoin Well Inc. and information provided in this presentation may be considered forward-looking statements. By their nature, such statements are subject to numerous known and unknown risks and uncertainties and therefore actual results may differ materially from those currently anticipated. Bitcoin Well Inc. disclaim any intention or obligation to update or revise such statements. Due to the nature of the Corporation's operations, quarterly revenues and earnings are not necessarily indicative of annual results.

Non-GAAP Measures

This Presentation may discuss "EBITDA" and "Adjusted EBITDA" to assist readers in understanding the Company's performance. These non-GAAP measures do not have any standardized meaning prescribed by International Financial Reporting Standards ("IFRS") and therefore are unlikely to be comparable to similar measures presented by other issuers and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. EBITDA and Adjusted EBITDA are used to show ongoing profitability without the impact of non-cash accounting policies, capital structure, and taxation. This provides a consistent comparable metric for profitability. Management of the Company uses these non-GAAP measures to supplement the analysis and evaluation of operating performance.

WHAT IS SELF-CUSTODY?

The safest way to interact with bitcoin

We do not hold customer's bitcoins.
Our users always have full control over their bitcoin.
We call this "Self-Custody"

- Custodian's are subject to honey pot attacks and process failure
- Canadian market is becoming skeptical of custodians*
- Inherent risks in custodial business models (ex. cryptocurrency exchanges) contributed to Canadian Regulators imposing numerous restrictions
- The Bitcoin Well "self-custody" business model has not been impacted by this enhanced regulatory oversight
- We offer convenient, secure and reliable ways to buy, sell, use and hold bitcoin through a trusted ecosystem of products
